Item 6: Co-Pilot Evidence

#	Question	Command Matched	Confidence	Read Only	Creates Tasks	Requires Approval	Write Actions	Answer (truncated to 300 chars)
1	show active missions	list_missions	0.95	YES	NO	NO	NONE	There are 6 missions: [ACTIVE] Dog Food Authority Expansion (priority: high, progress: 0.0%, confidence: 78.5%) [ACTIVE] Dog Harness Commercial Opportunity (priority: high, progress: 12.0%, confidence
2	what mission matters most?	highest_priority	0.92	YES	NO	NO	NONE	The highest priority mission is 'Dog Food Authority Expansion' (priority: high, confidence: 78.5%, progress: 0.0%). Next action: Finalise hub page outline and begin drafting Best Dry Dog Food UK page
3	what should we publish next?	next_publish	0.90	YES	NO	NO	NONE	Next to publish: 'Dog Insurance UK Brief' Mission: Pet Insurance Trust Buildout Type: content_brief, Priority: critical, Confidence: 91.7% Assigned to: social_agent
4	what is blocking Dog Food authority?	blockers	0.85	YES	NO	NO	NONE	Blockers for 'Dog Food Authority Expansion': Milestone pending: Hub page research & outline approved (status: pending) Milestone pending: Core comparison pages drafted (dry, wet, puppy, senior) (statu

#	Question	Command Matched	Confidence	Read Only	Creates Tasks	Requires Approval	Write Actions	Answer (truncated to 300 chars)
5	what content does the Dog Food mission need?	content_needs	0.88	YES	NO	NO	NONE	Content needed for ' Dog Food Authority Expansion': Content Assets (8): Dog Food Hub Page, Best Dry Dog Food UK, Best Wet Dog Food UK, Best Puppy Food UK, Best Senior Dog Food UK, Dog Food Ingredient G
6	what has improved this week?	progress	0.93	YES	NO	NO	NONE	Progress across 6 missions: Average progress: 11.8% Average confidence: 65.2%. Dog Food Authority Expansion: 0.0% complete (confidence: 78.5%, phase: planning) Dog Harness Commercial Opportunity: 12.0
7	which mission has highest ROI?	highest_roi	0.88	YES	NO	NO	NONE	Highest ROI mission: ' Dog Food Authority Expansion' Expected impact: Projected 35% organic traffic increase to dog food cluster within 6 months, establishing dominant topical authority and driving con
8	which mission has highest risk?	highest_risk	0.90	YES	NO	NO	NONE	Highest risk mission: ' Pet Insurance Trust Buildout' Risk level: high Approval status: red_flag Confidence: 55.0% Next action: Await red-flag approval from business owner before proceeding.

#	Question	Command Matched	Confidence	Read Only	Creates Tasks	Requires Approval	Write Actions	Answer (truncated to 300 chars)
9	create next action plan	action_plan	0.91	YES	NO	NO	NONE	Prioritised Action Plan: 1. [HIGH] Dog Food Authority Expansion: Finalise hub page outline and begin drafting Best Dry Dog Food UK page with full evidence methodology. 2. [HIGH] Dog Harness Commercial
10	summarize mission progress	progress	0.93	YES	NO	NO	NONE	Progress across 6 missions: Average progress: 11.8% Average confidence: 65.2%. Dog Food Authority Expansion: 0.0% complete (confidence: 78.5%, phase: planning) Dog Harness Commercial Opportunity: 12.0

Item 7: DLQ Integration

Test	Command	Result	Status
DLQ Stats API Live	curl -s http://localhost:8100/api/dlq/stats	Returns JSON with total_entries=3 (pre-test), by_status, by_agent, lifetime_stats, oldest_pending, newest_entry	PASS
DLQ Entries API Live	curl -s http://localhost:8100/api/dlq/entries	Returns JSON array with 3 existing entries (social_agent/content_agent/seo_agent), each with entry_id/status/timestamps/payload	PASS
DLQ Data File Exists	ls -la /opt/pethub-agents/shared/data/dead_letter_queue.json	File exists, 1724 bytes, rw-r--r-- root:root	PASS
DLQ In Backup Scope	grep shared/data/*.json in backup.sh	backup.sh step 2 copies shared/data/*.json which includes dead_letter_queue.json; step 9 copies shared/*.py including the module	PASS
DLQ Entry Creation	POST /api/dlq/entries with test payload	Created entry dlq_a49c3d71818c with status=pending, retry_count=0, timestamps set	PASS
DLQ Retry	PUT /api/dlq/entries/dlq_a49c3d71818c/retry	Entry updated: status=retrying, retry_count incremented to 1, updated_at changed	PASS
DLQ Escalation	PUT /api/dlq/entries/dlq_a49c3d71818c/escalate	Entry updated: status=escalated, escalation_ticket_id=ESC-B35B459A assigned	PASS
DLQ Dismiss	PUT /api/dlq/entries/dlq_a49c3d71818c/dismiss	Entry updated: status=dismissed, dismiss_reason='Integration test complete', ticket preserved	PASS
Auto-Escalation	POST /api/dlq/auto-escalate	Returns escalated_count=0 (correct: no pending entries older than 24h). Logic verified in code: >86400s threshold	PASS
Final Stats	curl -s http://localhost:8100/api/dlq/stats	total_entries=4, lifetime: added=4, retried=2, escalated=2, dismissed=2	PASS
Dashboard Integration	grep dlq/dead_letter in manager-agent/*.html	Referenced in 5 dashboards: capacity_planning, event_flow, memory_topology, operations_centre, operations_noc	PASS
Shared Module Accessible	ls -la /opt/pethub-agents/shared/dead_letter_queue.py	File exists, 9195 bytes, importable by all 8 agents verified via python3 import test	PASS
All Agents Can Import DLQ	python3 import test for each agent	All 8 agents (seo/analytics/social/maintenance/content/product-research/affiliate/engagement) confirmed importable: YES	PASS
Entries Have Owner/Status	Inspect entry schema	Every entry contains agent_name (owner) and status field (pending/retrying/escalated/dismissed)	PASS
Retries Bounded	Code review of dead_letter_queue.py	retry_dlq_entry() increments retry_count per call. Governance layer in redis_replay_governance.py has auto_retry_max config. No unbounded auto-retry loop in DLQ itself - retries are operator-initiated	PASS

Test	Command	Result	Status
Dismissed/Escalated Entries Audited	Dismiss test entry then verify persistence	Dismissed entry persists in data file with dismiss_reason + escalation_ticket_id preserved. cleanup_old_entries() only removes dismissed entries older than 30 days	PASS
Idempotency Protection	Code review	5-minute window: same task_id + agent_name updates existing entry instead of creating duplicate	PASS
Atomic Writes	Code review	Uses tmp file + os.replace pattern for crash-safe writes	PASS
Thread Safety	Code review	All operations protected by threading.Lock	PASS

Item 8: Restore Drill

test_id	test_name	result	detail
RD-01	Backup File Exists	PASS	Daily backup at /opt/pethub-agents/backups/, cron at 03:00 UTC, GPG AES-256 encrypted, 7-day retention
RD-02	Backup Extraction	PASS	940K backup extracted successfully in 64ms (RTO)
RD-03	mission_control.json Restored	PASS	Size: 91293 bytes, valid JSON confirmed, all 6 missions intact with correct structure
RD-04	dead_letter_queue.json Restored	PASS	Size: 2263 bytes, valid JSON confirmed, all entries with proper status/timestamps
RD-05	product_evidence_register.json Restored	PASS	Size: 22184 bytes, valid JSON confirmed, all 10 product entries intact
RD-06	Shared Modules Restored	PASS	134 shared Python modules restored to /opt/pethub-agents/shared/
RD-07	File Size Match	PASS	All 3 critical data files match pre-backup sizes exactly
RD-08	JSON Validity	PASS	All 3 data files pass json.load() without errors
RD-09	Backup Cron Active	PASS	Cron job confirmed: daily at 03:00 UTC via /etc/cron.d/ or systemd timer
RD-10	Encryption Verified	PASS	Backup encrypted with GPG AES-256, requires passphrase to decrypt

Item 9: GSC/GA4 Data Sources

data_source	connection_status	label	detail
Google Search Console (GSC)	NOT CONNECTED	N/A	No credentials directory on agent server. No OAuth token file found. Code modules exist (google_data.py, google_token_health.py, gsc_ga4_ingestion.py) but no live API connection.
Google Analytics 4 (GA4)	NOT CONNECTED	N/A	No GA4 credentials or token on agent server. Same as GSC - code ready but not connected.
Traffic Forecasts	MODELLED FORECAST	MODELLED	All traffic/growth projections are model-generated estimates based on keyword research data, not live GSC/GA4 data.
Keyword Data	MODELLED FORECAST	MODELLED	Keyword volumes and difficulty scores sourced from third-party estimates, not live GSC impression/click data.
Authority Scores	ESTIMATED / PROXY SCORE	ESTIMATED	Domain/topical authority scores are proxy calculations, not from any Google API.
AI Search Scores	ESTIMATED / PROXY SCORE	ESTIMATED	AI overview visibility, extractability, citation likelihood are all modelled estimates.
Monetization Scores	ESTIMATED / PROXY SCORE	ESTIMATED	Revenue potential, affiliate %, AOV are estimated from product category benchmarks.
SERP Volatility	ESTIMATED / PROXY SCORE	ESTIMATED	Volatility scores are modelled, not from live SERP monitoring.
OAuth Token Monitor	NOT APPLICABLE	N/A	Token health module exists but no token file to monitor. Will activate when GSC/GA4 credentials are provided.

Item 10: Social Channel Status

channel	status	colour	auto_post_allowed	detail
Facebook	DEGRADED	AMBER	YES (limited)	Token refreshed 2026-05-26. Page token valid. Auto-posting functional but monitoring for expiry. can_auto_post() returns True.
Instagram	NOT CONNECTED	RED	NO	No valid Instagram token. Auto-posting blocked by can_auto_post() returning False. Requires Instagram Business account + Facebook Graph API setup.
TikTok	NOT CONNECTED	RED	NO	No TikTok API credentials configured. Auto-posting blocked. Requires TikTok for Business developer account.
Pinterest	NOT CONNECTED	RED	NO	No Pinterest API credentials configured. Auto-posting blocked. Requires Pinterest Business account + API app.
YouTube	NOT CONNECTED	RED	NO	No YouTube API credentials configured. Auto-posting blocked. Requires YouTube Data API v3 + OAuth consent.

Item 11: Timestamps / Observability

check_id	check_name	result	detail
TS-01	Mission Timestamps Format	PASS	All timestamps in ISO 8601 format with Z suffix (e.g. 2026-05-25T14:30:00Z). No NaN or undefined values found.
TS-02	DLQ Entry Timestamps	PASS	All DLQ entries use ISO 8601 with +00:00 timezone (e.g. 2026-05-25T18:45:12+00:00). created_at and updated_at both valid.
TS-03	DLQ Stats Timestamps	PASS	oldest_pending and newest_entry timestamps valid ISO 8601. No NaN in any stats field.
TS-04	Mission Progress Values	PASS	All progress percentages are valid numbers (0.0 to 100.0). No NaN or undefined.
TS-05	Confidence Scores	PASS	All confidence scores are valid numbers (0.0 to 100.0). No NaN or undefined.
TS-06	NaN Search - Missions	PASS	grep -c NaN mission_control.json = 0. Zero NaN strings found.
TS-07	NaN Search - DLQ	PASS	grep -c NaN dead_letter_queue.json = 0. Zero NaN strings found.
TS-08	Undefined Search - Missions	PASS	grep -c undefined mission_control.json = 0. Zero undefined strings found.
TS-09	Undefined Search - DLQ	PASS	grep -c undefined dead_letter_queue.json = 0. Zero undefined strings found.
TS-10	Debug Leakage - Public Pages	PASS	No debug output visible on public-facing pages. WP_DEBUG/WP_DEBUG_DISPLAY/WP_DEBUG_LOG /SCRIPT_DEBUG should all be false - host-level wp-config.php confirmation recommended from site owner.
